Type	-	CMS BS08	Volume flow	l/min	70 - 120
Excavator class	t	8 - 16	Setting	-	shear*
Weight	kg	650	Standard cutting depth	mm	500
Operating pressure	bar	max. 350	Water connection	l/min	15 - 20 (max. 8 bar)

*Shear = double-acting circuit / S

Maximum cutting depth 800 mm on request

Horizontal, vertical and diagonal cuts

Floor, wall and ceiling flush cuts

Optimum water cooling of the saw blade from the centre, on both sides

Angle display in two axes

Cutting force adapted to material

Overload protection for saw blade

Variable rotationspeed

Speed monitoring

Automatic speed regulation

Entire Egli rental park range
